FOR THIS SHOP TO PRINT. The Price of Happiness. Victrola Aiken Bros., Allenford. We know a young bride who was lonely and unhappy at home, with her husband at business all day. She decided that a Victrola would be "good company," so she bought one from us. A few days ago we asked her if the Victrola was worth to her what it cost. "A thousand times more!" she replied. "I sing with the Victrola when I sew, and dance to its music when I dust. And the price of happiness was mighty little!"

Pure Parchment PRINTED BUTTER WRAPPERS for sale at The Progress Office

F. O. B. WINDSOR. With the accuracy of a scientific instrument—or a calculation by mathematics—the Maxwell Motor Company, Limited, has BALANCED the price of its car. That balancing of the Maxwell price means this: While materials cost what they do now, the Maxwell Company finds, it is impossible to build, and sell for less than \$1045, any motor car in which efficiency, durability, economy, comfort, beauty and standard equipment are all present, as they are present in Maxwell. On the other hand, these being co-ordinated in the Maxwell, all you could get by paying more money for a motor car would be either larger size or greater luxury of furnishings. In other words, the Maxwell is built and sold on the MIDDLE LINE of real value. This finding of the Maxwell builders is based on the lowest level of in many years of production on a vast scale. We believe it to be scientifically—absolutely—correct. Aiken Bros., Allenford

The I. Illustration of a man and a woman. "WHAT'S THE MATTER, BELLEN—WHAT ARE YOU SORE ABOUT?", "NEVER MIND—I'M GIVING DOWN TO THE OFFICE WITH YOU!", "OFFICE, WHAT FOR?", "I WANT YOUR, YOU"
